- 3. At about 7 a.m. on 17 July, a tank car was emptied on the spur track to the ration supply depot. Tank trucks VP 00-6566 and VP 00-7584, each with a trailer, hauled the fuel toward Nochten. At about 9 a.m., a refrigerator car with fresh meat and cans and a boxcar with flour and noodles were unloaded. The VEAB daily delivered fresh vegetables at Camp Nochten.
- 25X1A 1. Comment. The KVPs wearing red-bordered black epaulets are rather safely believed to belong to the artillery regiment of the TV 6000 in the Henne Kaserne in Erfurt, whereas the KVPs wearing green service color probably belong to the intendance school in the Fetersberg Kaserne in Erfurt.
- 25X1A 2. Comment. On 15 July, the same sources estimated the occupation of Camp Nochten at 2,000 KVPs.
